

## PRESS RELEASE

### Vicon Boosts EXPERT Drum Mower Range

02.09.2010, Kerteminde, Denmark

*Vicon EXPERT 431F*

Excellent performance and continued reliability are what you can expect from the new range of EXPERT drum mowers from Vicon.

The five-model range includes the 117 and 119 twin drum machines that achieve 1.65m and 1.95m working widths, while the four-drum 427F, 431 and 431F models have 2.65m and 3.05m cutting widths.

The arrival of the two front-mounted models allows larger tractors to be used with front and rear drum mower combinations. Using an EXPERT 431 with an EXPERT 431F gives a 5.7m cutting width. Alternatively, an Expert 427F or 431F could be used in combination with a forage loader wagon.

All models in the EXPERT range benefit from using four bearings on each drum shaft, with three blades per drum to give excellent cutting quality, regardless of ground contours – the integrated suspension and ground contour following system protects the machine while maintaining an even stubble height and encouraging faster regrowth.

All models come standard with quick knife change system.

	<b>EXPERT 117</b>	<b>EXPERT 119</b>	<b>EXPERT 427F</b>	<b>EXPERT 431F</b>	<b>EXPERT 431</b>
Working Width	1.65 m	1.90 m	2.65 m	3.05 m	3.05 m
Weigth kg	390	480	630	705	900
Number of Drums	2	2	4	4	4
PTO req. min. (kW/HP)	22/30	30/40	40/54	50/68	54/73
